## SignatureGem LCD 1x5

SignatureGem LCD 1x5 includes all the high-quality capture features of a Topaz electronic signature pad with the added feature of an LCD interactive display, allowing users to see "electronic ink" under the pen tip as they sign as well as navigate between data screens where they will be able to read agreements and check preferred options for each transaction.

All Topaz products come bundled with our powerful [software tools](#) and support for the capture, encryption, and authentication of electronic signatures. All software and updates are licensed for use with Topaz tablets at no extra charge and can be [downloaded](#) from our website.
